

MJBSelect Surface

ENGINEERED PANELS By MJB Wood Group, LLC

MJBSelect Surface™ was developed in partnership with our extensive supply network as a premium alternative to decorative panels for applications in the furniture, fixture and display, cabinet and architectural millwork segments. MJBSelect Surface panels offers both custom and volume solutions for customers that demand the flexibility of choice in a premium laminated panel with a variety of platform and veneer options.

- ✓ High quality overlays to include veneers, high-pressure laminates, metals, plastics and other engineered surfaces
- ✓ Substrate options: veneer core, composite wood core, combi-cores and honeycomb
- ✓ MJB's rigorous quality control ensures the product meets or exceeds your specifications
- ✓ Domestically produced to control lead-times and inventory carrying costs
- ✓ Plywood panels graded to HPVA standards
- ✓ Premium hardwood veneers with the option to specify the sourcing all the way to the log
- ✓ Environmental standards consisting of TSCA, FSC, NAUF/ULEF plus specialty attributes of fire-retardant and moisture resistant panels
- ✓ Available in panels and components tailored to your specifications offered as direct ship, stocking program or MJB VOS vendor managed inventory options
